

ADDENDUM TO BYLAWS AND STANDING RULES FOR
BETA ETA CHAPTER OF ALPHA EPSILON PHI SORORITY

Along with the Bylaws and Standing Rules adopted by Beta Eta Chapter of Alpha Epsilon Phi Sorority, we adopt the following items for the 2020-2021 academic year:

1. **Beta Eta Chapter of Alpha Epsilon Phi Sorority at UCSD is a registered non-profit student organization at the University of California, San Diego, but not part of the University itself.**
2. Only registered UCSD students may hold office in the organization. Only registered UCSD students may vote in elections for the selection of the organization's officers. Beta Eta Chapter of Alpha Epsilon Phi Sorority at UCSD selects officers through an election process that follows Alpha Epsilon Phi Sorority National policy.
3. Beta Eta Chapter of Alpha Epsilon Phi Sorority at UCSD recruits members through Primary Recruitment and Continuous Open Bidding that follow University and Alpha Epsilon Phi Sorority National policy.
4. Beta Eta Chapter of Alpha Epsilon Phi Sorority at UCSD holds meetings on a frequency as needed that follows University and Alpha Epsilon Phi Sorority National policy.
5. **Beta Eta Chapter of Alpha Epsilon Phi Sorority at UCSD understands that the University does not assume legal liability for the actions of the organization.**
6. Beta Eta Chapter of Alpha Epsilon Phi Sorority at UCSD is aware that all registered student organizations that serve minors or the elderly have access to training on child and elder abuse prevention for its members via the Center for Student Involvement, online or in person (in person by request only). Beta Eta Chapter of Alpha Epsilon Phi Sorority will develop plan(s) for activities and events where members will be interacting with minors or the elderly such that members will receive education and/or training on Child Abuse Neglect Reporting Act (CANRA), common sense measures to both avoid child or elder abuse allegations (i.e. avoiding one-on-one situations; working with minors in plain view of others; limiting calls/texts/social media posts or other communications with minors), and how to properly report potential harm or neglect to minors or the elderly with whom they are working.
7. In the event that Beta Eta Chapter of Alpha Epsilon Phi Sorority at UCSD provides medical assistance to a community, all volunteers will work under the direction of licensed professionals (doctors, nurses, counselors, etc.). The University does not recommend that students provide medical assistance.
8. Beta Eta Chapter of Alpha Epsilon Phi Sorority at UCSD recognizes that the University generally recommends against all international travel by student organizations due to the myriad of risks travelers face in foreign countries. Student organizations are discouraged from traveling to foreign countries due to the wide variety of risks involved with foreign travel, and the extensive planning efforts required by the student organization's members to manage those risks. Security risks and health care services vary widely from one country to another, so thorough research on those topics is especially important.

International travelers are advised to research US State Department Travel Advisories and the CDC Travel Health site and abide by all recommended alerts and warnings, and procure travel insurance with medical coverage that covers their chosen destination because most USA health plans are not valid in foreign countries.

9. Beta Eta Chapter of Alpha Epsilon Phi Sorority at UCSD recognizes that all student organization activities must be conducted safely, in accordance with all applicable federal, state and local laws. Additionally, Beta Eta Chapter of Alpha Epsilon Phi Sorority at UCSD will abide by UC San Diego requirements for students in labs, including policies for minors in UC laboratories, and ensure members receive safety training regarding the use of chemicals and/or machinery before entering the lab. Members must follow any best practices and lab safety protocols for the use of such chemicals, research equipment or machinery, including the appropriate use of Personal Protective Equipment, and should work under close supervision of those trained in the handling of chemicals/use of research equipment or machinery.
